

Dissemination of Research Procedures

1. Researchers shall include a dissemination plan when completing the “Request to Conduct Research” form that goes beyond peer-reviewed publications and scientific presentations.
2. Research results shall be shared with the WHC Research Committee prior to any dissemination to the public. All materials for publication, presentation or public use shall be reviewed and approved by the WHC Research Committee prior to dissemination.
3. Research findings shall be disseminated to participants in a format accessible, comprehensible and of benefit to a lay (non-scientific) audience.
4. The researched may confer with the WHC Research Committee regarding acceptable methods of dissemination.
